

Hand Sanitizing

Usage

Hand sanitizer

INSTRUCTIONS:

FILL THE PITCHER WITH 1 LITRE OF TAP WATER ADD HALF A SPOON OF SALT (0.5gram)
PRESS THE START BUTTON AND WAIT 5 MINUTES
WHEN THE ELECTROLYZED WATER IS READY, POUR INTO A SPRAY BOTTLE TO USE.

How to use :

1. Spray electrolyzed water over your hands sufficiently.
2. Rub your hands and wipe and dry your hands with clean towel or handkerchief.

Effect :

Sterilizing and keeping your hands clean
Preventing skin damage and dryness with non-alcoholic ingredient

※ The more often you use this way, the better result you get.

Caution :

Be cautious when you use on the sensitive skins of the elderly or baby.
If there's any irritation on your skin, stop using it immediately and consult a doctor.

MAKING ELECTROLYZED WATER WITH aHOMEGUARD

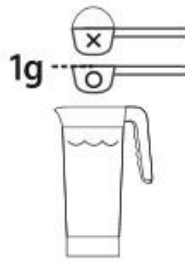

Pitcher(1000ml)

1
